Family Service In Saskatchewan

Family Service Saskatchewan is an association of independent family service agencies located throughout Saskatchewan. Family Service Agencies of Saskatchewan have a long history (5-80 years) of working with individuals, families, and communities to strengthen family life and improve family community wellness.

Family Service Agencies demonstrate collaboration in their respective communities as well as provincially. Family Service Agencies are; flexible, reliable, productive, and cost effective. We have found that although we are located in widely dispersed locations throughout the province we are remarkably similar in values and commitment to families and our communities.

Together Family Service organizations contribute over \$10 Million Dollars in business activity each year and employ over 300 Saskatchewan residents in full time, part time, and casual jobs.

In addition, as community based organizations Family Service Agencies generate significant volunteer opportunities through governance boards, fundraising activities, student placements, and program support.

Collectively we provide counselling, family support and personal development for children, youth and parents.

Together, Family Service Agencies helped over 32,000 children youth and adults last year.

We are proud of our place in our communities.
